Bug Fixes

| No | Functions | Fixes |
|---|---|---|
| 1 | Spreadsheet | Cannot browse a file that contains a sheet with a filter |
| 2 | Files | My space has not been translated |
| 3 | Workflow | After referencing the target file, the application date and time disappear |
| 4 | Workflow | When the approval process floating button is pressed, the button itself is greatly shifted downward |
| 5 | Workflow | Conditional or normal approval is not clear when displaying steps |
| 6 | Workflow | After approving or rejecting, delete the target file and get an incorrect dialog when trying to reference it from the workflow |
| 7 | Workflow | Rejected workflows may remain in the pending state on the "Your Application" tab |
| 8 | Push Notification | Tapping a notification may not switch to that screen |
| 9 | Push Notification | Push notification may not arrive on iOS13 |
