## Bug Fixes

項番	機能名	対応内容
1	Files	The modification date and time are updated when the file is recovered from the Trash.
2	Files	If the browser magnification is other than 100%, an error will occur when changing the list width.
3	Files	If there are a large number of spaces and files, the query view result will not be returned.
4	Files	Unexpandable subspace is displayed even the third layer space exist if there are some sub space doesn't have access control.
5	Files	"Upload by drag &drop" does not display when uploading files with drag and drop in Microsoft Edge
6	Files	Sorting in the trash does not line up correctly
7	Gallery view	Many large images slow down performance and make the browser unresponsive
8	Delivery	When selecting a destination in Salesforce, if you select a category such as opportunity or contact, data may be displayed as zero even though there is data.
9	Public Space	When setting Spanish and Portuguese, the contents of the Public space are not displayed
10	Delivery & Share link & Public Space	If your email address is 10 characters or less, you cannot directly enter and send it.
11	Property	Kinsoku characters for text-type custom items differ between screen and API
12	Smart rules	The uploading (version upgrade) and text delete is strange.
13	Smart rules	OK button does not take effect even if the setting is changed in the smart rule setting dialog
14	Smart rules	The list is not updated even if I change the movement conditions and press the change button
15	Smart rules	Even if you upload multiple files at once, the workflow application is applied for each file.
16	Smart rules	Workflow display is slow when selecting a workflow
17	PDF Watermark	When an image is specified for the watermark, the watermark does not appear when the size is changed depending on the image.
18	Lifecycle Settings	When changing the authority that cannot be specified as notification destination, the notifications are sent even though they disappear from the notification list.
19	Workflow	Some workflow which approved myself does not appear in Approved workflow view.
20	User Management	In the case of double license, if you change the permission from the user management of Salesforce's Fleekdrive setting and try to reduce the number of licenses, the system permission will be different between the Salesforce version and the main body version.
21	User Management	After importing a user in the disabled state, if the user is enabled in user management, two "My Documents", "My Pictures", and "My Movies" under My Spaces are displayed.
22	User Management	Home space should not be a required item in imported data
23	User Management	If you press OK without editing anything in the user edit of the invalid user, it may be locked.
24	Space User Extraction	If you cancel the shared user selection screen while setting it and then launch the shared user selection screen again, the previous work contents are not displayed.
25	Group Management	Group administrator can join / leave unmanaged groups by user import
26	Group Management	User management permission in the profile of group manager management permission is not used by group.
27	Space IP address connection management	When the accessing registered IP address is not matched, the restricted space and the same layer space are not displayed.
28	Two-factor authentication	Group manager can change the two-factor authentication setting.
29	Two-factor authentication	The account who is given the permission of Management>Security setting can now set the two-factor authentication.
30	Duplicate permit	Cannot sort by definition name
31	Trail	In the trail export function, the tree display of target space / output destination space selection and desktop synchronization space selection is broken.
32	Trail	When exporting the trail of downloading and uploading in Public space, the user ID who publishes is recorded.
33	Trail	When extracting the target space on the export confirmation screen, the space is not unchecked even if the checked space is removed.
34	Trail	The csv file created by trail export cannot be viewed as it is
35	Audit Settings	After setting and updating Audit settings, the slide bar is set to "off" when displaying the policy settings again.

項番	機能名	対応内容
1	Spreadsheet	It does not recognized as function when the input starts from braces.
2	Spreadsheet	The borders get missing sometimes when combining cells with borders in some files and cells.
