Bug Fixes

No.	Function	Detail
1	Dashboard	"Personal dashboard" is turned off in the initial setting.
2	Files	Spaces cannot be tagged, but direct editing of the list brings up the edit menu.
3	Files	Checkbox is not displayed in Mac Safari.
4	View	"Downloads" and "Views" items are not displayed in the search view conditions.
5	Space Download	Download size threshold is checked by total space size.
6	Office Addin	Uploading is not possible if proxy server authentication is required when connecting to the external network.
7	Copy	After stopping the copy, launch "My information", cancel it, and try to copy again, but there is no response.
8	Shortcut	After deleting the shortcut, when the pop-up menu is displayed, the delete menu will be appeared again.
9	Mail Notification	Fixed so that the sharing target is not automatically included in the notification destination when adding a share.
10	PDF Conversion	Fixed an issue where uploading (Check-in) a Word file and converting it to PDF would show hidden proofreading information.
11	PDF Security	If set "Do not allow document changes", you will be asked for a password to edit the downloaded PDF.
12	Smart Rule	When set to Spanish / Portuguese, the menu "Upload (Version up)" is displayed blank.
13	Public Space	If a user who has set a public space is deleted from the space share or the user is invalidated, the public space will remain in the form of being displayed with the authority of that user.
14	Public Space	When displaying the public space setting, the default value is displayed with priority over the set value.
15	Public Space	If remove a user who has set a public space from the shared space, opening the public space will show the setting user's My Space.
16	Delivery	If changed the branding logo, the logo on the delivery password entry screen is broken and does not appear.
17	Workflow	When copying application is executed, screen layout is broken in "Use defined approval route".
18	User Edit	If there is no character string after "¥" in the user name (user name / last name, user name kana / last name kana), editing and button will not work.
19	User Edit	If use special characters (&, <,>, ¥ ",', ¥¥) in username, they will be displayed as replaced strings.
20	Group Management	When creating a group, an error message will be displayed when a group that cannot be set due to permissions is selected.
21	Lifecycle	In the case of IE, the date of the preset action on the file lifecycle setting screen is transparent and invisible.
22	Audit	Notification email is not sent even if the set policy is violated.
23	Equipmedia	If it is completely deleted in the life cycle, the video data on the Equipmedia side will not be deleted.
24	For Salesforce	An error occurs when the user is disabled while both My Space and delivery threshold notifications are enabled.
25	For Salesforce	When a user who has set a language that Fleekdrive does not support in Salesforce user settings displays the screen, items displayed in English and items displayed in Japanese are mixed and displayed.
26	For Salesforce	If the error of insufficient number of licenses occurs on the DataBase side of Fleekdrive when enabling the user, the Fleekdrive enable / disable flag of the Salesforce user record remains enabled.
27	For Salesforce	When enabling the user, no error occurs even if the number of remaining licenses of Fleekdrive is 0 .

No.	Function	Detail
1	SpreadSheet	If select a row in the range where the matrix style settings intersect and clear the format, the column style may not be cleared, and if you select a column, the row style may not be cleared.
2	SpreadSheet	If select a matrix with a matrix style and clear the format, the styles outside the selection may also be cleared.
3	SpreadSheet	If select a cell in the range where the matrix style is set and clear the format, the style may not be cleared.
4	SpreadSheet	If the position of the function shifts due to matrix insertion etc., the value of the cell where the original function was located will be the same as the result of the function.
5	SpreadSheet	After inserting rows and columns, the calculation result cell of the saved Excel file may not contain a numerical value.
6	SpreadSheet	When Undo/Redo is performed after replacement, the display on the client side does not match.
7	SpreadSheet	Cell selection and scrolling may be incorrect when moving with the arrow keys.
8	SpreadSheet	Certain group shapes are not displayed.
9	SpreadSheet	If delete a column, it will not be calculated and the format will not change even if you enter it in the column before the deleted column.
10	SpreadSheet	When the format is changed by an indirect condition in the conditional format, the display does not change.
11	SpreadSheet	Even if the cell value in the range where the conditional formatting is set is changed and the pass / fail of the condition changes, the formatting other than the changed cell does not change.
12	SpreadSheet	Matrix cannot be inserted in newly added sheet.
13	SpreadSheet	If the vertical position is centered vertically and the horizontal position is left-aligned, it will be left-aligned.
14	SpreadSheet	If select a column and clear it, the unselected location will also be cleared.
15	SpreadSheet	When pasting after cutting, the result of the calculation formula using the pasted cell and the deleted cell is not updated.
16	SpreadSheet	Flip upside down If you flip left and right, the figure display will not be normal.
17	SpreadSheet	If add a background color to the cell displaying the day of the week in the user-defined format, the serial value will be displayed.
18	SpreadSheet	Browser freezes when there are too many rows to filter.
19	SpreadSheet	When uploading an EXCEL file with a password for the first time and opening it without conversion, if the password is incorrect, it will be converted all the time.
20	SpreadSheet	If add cells, rows, and columns, save them, and then download them, the cells may not contain values.
21	SpreadSheet	Grouped text boxes do not appear
22	SpreadSheet	When refer to the date with the TEXT function and change it to the day of the week, the serial is displayed.
23	SpreadSheet	Column size is different when newly created on Mac and displaying a file with default column size.
24	SpreadSheet	45-135 225-315 Degree rotating shapes are not displayed properly.
25	Slide	When the English text of the table is automatically broken, the second and subsequent lines are not displayed.
26	Slide	If there is a character string containing a tab character in a table cell, it will not be displayed correctly.
27	Slide	Extra horizontal lines are drawn in table cells.
28	Slide	During interdiction processing, the order of line breaks is reversed.
29	Slide	Right-click menu and submenu overlap.
30	Slide	The vertical position of the text field when adding a title slide is different between editing and after saving.

No.	Function	Detail
