Functional Improve

No.	Function	Detail
1	EBS Option	Control for apply or accept of EBS with system authority (abolish control by accept group.)
2	EBS Option	It is possible to apply for the EBS from any space (My Space, Collabo Space, and Company Space).
3	EBS Option	When accept is rejected, changed the specification so that the file will be return to the space from where it was.
4	EBS Option	System authority "EBS Applicant User" and "EBS Recipient User" are added.
5	EBS Option	Fixed a bug that the currency unit was not registered in "Attribute value automatic registration" in the automatic receipt function.
6	EBS Option	Modified to disallow application in the following cases <ul style="list-style-type: none"> <li>· File locked status</li> <li>· While checking for viruses</li> </ul>
7	Shared User	The order of the access authority selection screen when sharing has been unified to be "name order".
8	Video playback	Added double speed and fast forward functions for video playback.
9	IP address restrictions at login	Since the initial value of "Data that allow IP" in the "Create new data to allow" dialog is "All users", changed to "User".
10	API	Add delivery function to new API.

## Bug Fixes

No.	Function	Detail
1	File Sharing	Removing a user from the bottom right floating button in space sharing does not disappear from smart rules and shared spaces in Myspace.
2	File Sharing	No trail appears when deleting a user from the floating button on the bottom right in space sharing.
3	File name search	Error when trying to edit a file with an Office add-in in the file search results list.
4	File name and Full-text search	Cannot search (file name search / full text search) in Public space.
5	File Delivery	If you hide the contact information of Fleekdrive users, organizations, and partner companies in the address book, you will not be able to refer to it from anywhere.
6	File Delivery	When copy Delivery, the message "Address is incorrect" is displayed for items that have been entered manually.
7	File Delivery	Mails may not be tagged when mouse down on mail autocomplete.
8	Public Space	Video and image files can be switched to list and thumbnail display in public space.
9	Public Space, Delivery, Shared Link	The page is displayed by Google search etc.
10	Workflow	An error occurs when a user who does not have workflow definition authority creates an approval route with "Decide the approval route now" when applying for a workflow.
11	User Management	Corrected the organization list display to the left alignment on the name edit screen of user management.
12	User Management	In the case of a tenant that allows duplicate user IDs, disabled / locked users can log in.
13	System Authority	If you assign a system authority that disallows all my information items, even the "my information" icon at the top left of the screen will disappear and you will not be able to log out.
14	Two-factor authentication	The last login date and time is not updated when logging in with two-factor authentication.
15	EBS Option	Received files do not move to storage space.
16	EBS Option	Fixed a bug that is not searched by numeric type value.
17	EBS Option	Fixed a bug that the "Apply" action was not displayed when the following permission settings were made in the related list. User: Coordinator Group: EBS Inputter
18	EBS Option	Fixed a bug that EBS item was not displayed from "Properties" in the Collabo space.
19	EBS Option	Fixed the display collapse of "Usage status" on the management screen in the Salesforce version.
20	EBS Option	Fixed a bug that remained in accepting status.
21	EBS Option	Fixed a bug that could not search trails related to the EBS.
22	EBS Option	Fixed a bug that failed to output when exporting shared users for EBS spaces in "Settings > User management > Shared user extraction".
23	EBS Option	Fixed a bug that lifecycle operations "delete status (move to trash)/move to archive/complete delete" could be set for the EBS spaces.
24	EBS Option	Fixed a bug that made it possible to apply and receive shortcuts.
25	EBS Option	Fixed a bug that version management (upper limit such as generation) could be set in the EBS spaces.
26	EBS Option	Fixed a bug that required check of attribute items does not work.
27	EBS Option	Fixed a bug that e-mail notification could not be performed unless automatic accept was enabled.
28	API	The Derivery API and Shared Link API do not support the function to send the password to the sender.
29	OPRO DRIVE	Office add-ins not enabled by default.
